香港氣象學會

Objectives of the Society

Established in 1988, Hong Kong Meteorological Society aims to

- develop and disseminate knowledge of meteorology and related oceanic, hydrologic and geographic sciences
- promote and advance the professional application of meteorology
- encourage collaboration amongst members of the Society, individuals, bodies both corporate and non-corporate who may share the Society's interest in meteorology
- promote among the public an understanding of weather and an appreciation of the value of meteorology and its applications

Activities of the Society

Research Forums and Society Lectures

Specially organized seminars or lectures on a selection of topics in meteorology with presentations by academic researchers, practicing meteorologists or eminent visiting scientists

Public Lecture and Meteorology Course Series

Popular lectures and short meteorology courses for the public, usually conducted in conjunction with other local institutions

Visits and Field Trips

Visits and trips to meteorological and other geophysical facilities in and outside Hong Kong

Non-members are always welcome to attend Society functions.
